SUMMARY

Aspiring Fullstack Developer with a strong understanding of fundamental web development concepts, including HTML, CSS, and JavaScript, NodeJs, ExpressJs Java, Spring Boot. Experienced in designing and developing user interfaces using ReactJS, building reusable and maintainable UI components, and integrating front-end components with backend APIs. Eager to learn from senior developers, contribute to a collaborative team environment, and stay up-to-date with the latest trends and technologies.

RELEVANT PROJECTS

Blog Application(React, Tailwind CSS, Appwrite (for backend services))

[Demo](#)

Developed a dynamic blog application with full CRUD (Create, Read, Update, Delete) functionality.

- **Features:**
 - User authentication and authorization
 - Post creation, editing, and deletion
 - Real-time data updates
 - Responsive design for mobile and desktop views

Social Media Clone(React, Redux, Spring Boot)

[Demo](#)

Built a social media clone using ReactJs and SpringBoot.

- **Features:**
 - User authentication and authorization
 - Post creation, editing, and deletion
 - User Dashboard
 - Real-time data updates
 - Responsive design for mobile and desktop views

EDUCATION

2021 - present BE at **Gnanamani College of Technology**

(GPA: 8.0/10.0)

SKILLS

- **Frontend:** HTML, CSS, JavaScript, ReactJs, Redux, Bootstrap, Tailwind CSS
- **Backend:** NodeJs, ExpressJs, Java, Spring Boot
- **Technologies and Tools:** Git
- **Databases:** MySQL, MongoDB
- **Soft Skills:** Problem Solving, Self-Learner, Code Reviews, UI/UX Design, API Integration, Communication, Collaboration
